

MECCANO

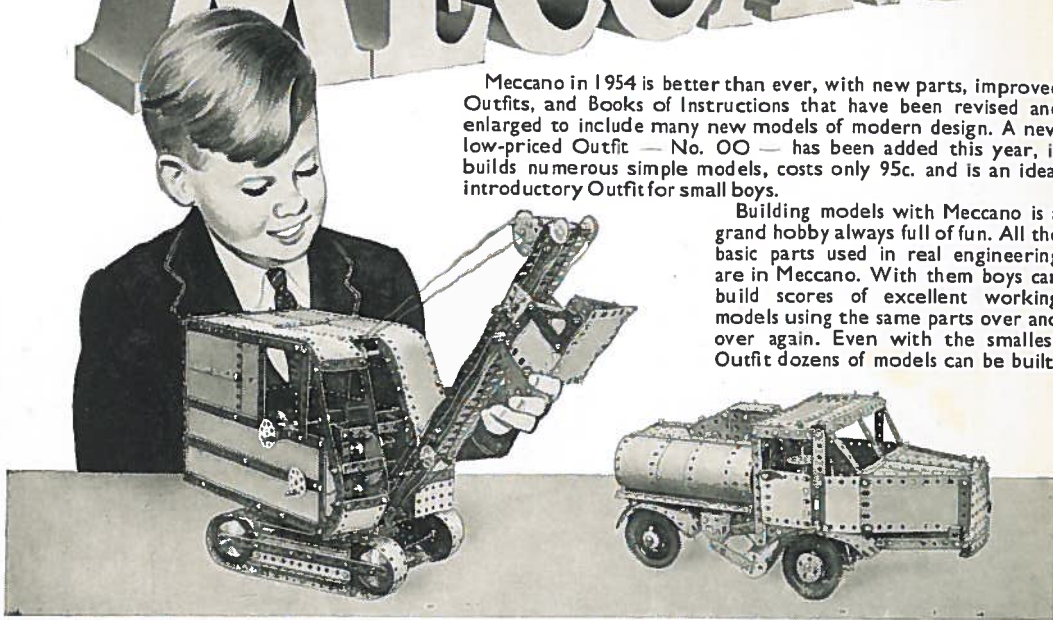

Toys of Quality

MECCANO

Meccano in 1954 is better than ever, with new parts, improved Outfits, and Books of Instructions that have been revised and enlarged to include many new models of modern design. A new low-priced Outfit — No. 00 — has been added this year, it builds numerous simple models, costs only 95c. and is an ideal introductory Outfit for small boys.

Building models with Meccano is a grand hobby always full of fun. All the basic parts used in real engineering are in Meccano. With them boys can build scores of excellent working models using the same parts over and over again. Even with the smallest Outfit dozens of models can be built.

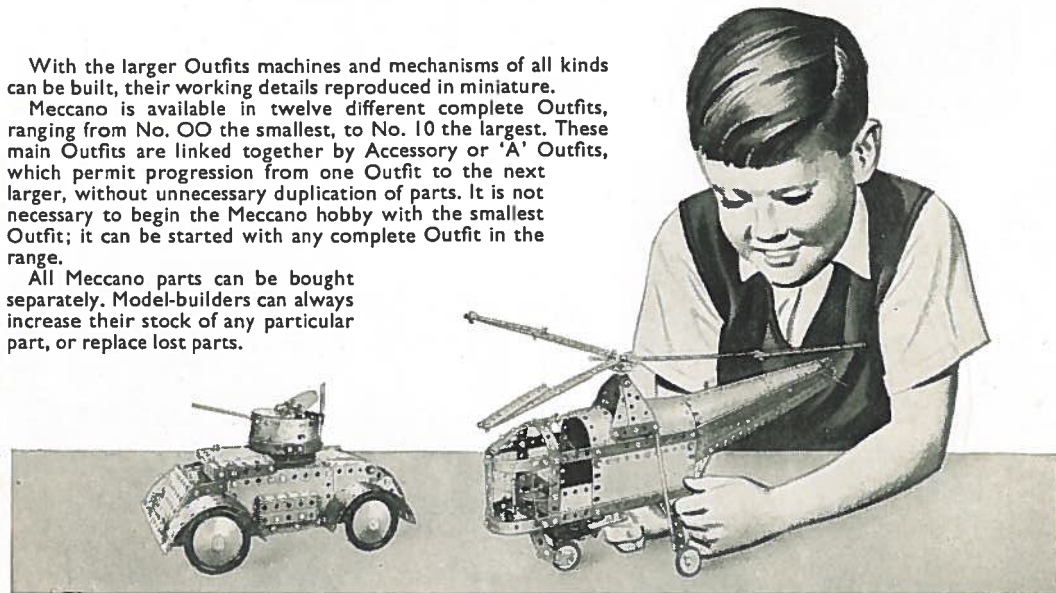

Increase the fun of model-building by reading the 'Meccano Magazine'

- the Toy of the Century !

With the larger Outfits machines and mechanisms of all kinds can be built, their working details reproduced in miniature.

Meccano is available in twelve different complete Outfits, ranging from No. 00 the smallest, to No. 10 the largest. These main Outfits are linked together by Accessory or 'A' Outfits, which permit progression from one Outfit to the next larger, without unnecessary duplication of parts. It is not necessary to begin the Meccano hobby with the smallest Outfit; it can be started with any complete Outfit in the range.

All Meccano parts can be bought separately. Model-builders can always increase their stock of any particular part, or replace lost parts.

Illustrated Meccano parts price lists are obtainable from Meccano dealers

MECCANO

MECCANO COMPLETE OUTFITS

Meccano is sold in 12 different Outfits, ranging from No. OO to No. 10. All Meccano parts are of the same high quality and finish, but the quantity and variety increase in each successive Outfit making possible the construction of progressively bigger and better models.

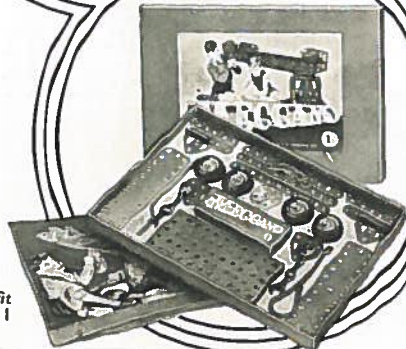

Meccano Outfit No.	each	\$	Meccano Outfit No.	each	\$

MECCANO ACCESSORY OUTFITS

Each Meccano complete Outfit can be converted into the one next larger by the addition of the appropriate Accessory Outfit. No matter with which Outfit a boy begins, he can build it up by degrees until he has all the parts contained in the largest Outfit.

Meccano Gears Outfit 'A'

This Outfit contains a useful selection of standard Meccano Gears.

It is particularly suitable for owners of the smaller Meccano Outfits, which do not include Gears.

\$1.95

MECCANO MOTORS AND TRANSFORMER

Four Meccano Motors are available — two clockwork and two electric. They have been designed specially to provide smooth-running power units for the operation of Meccano models.

Clockwork Magic Motor. This non-reversing motor is specially intended for driving small models ... **\$1.10**

Clockwork Motor No. 1. A strongly-built long-running motor fitted with reversing mechanism **\$2.95**

No. EO20 Electric Motor. 20-volt. A sturdy non-reversing power unit of the all-enclosed type ... **\$3.95**

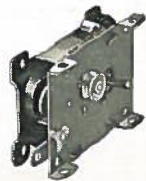

No. E20R Electric Motor. 20-volt. A powerful motor fitted with reversing mechanism... .. **\$5.75**

Transformer, output 12-volts 1 amp., for alternating current supplies of 110 volts, 60 cycles. This transformer can also be supplied for other mains voltages and frequencies. When ordering, state voltage and frequency of mains supply **\$9.50**

Brush for EO20 and E20R Motors **6c.**

No. 1 Clockwork Motor

DINKY BUILDER

THE SIMPLE BUILDING TOY

Dinky Builder is the simplest and most satisfying constructional toy for any young child. No nuts and bolts — just brightly coloured hinged plates and rods, which can be used over and over again to build wheel toys, furniture, houses and scores of other models.

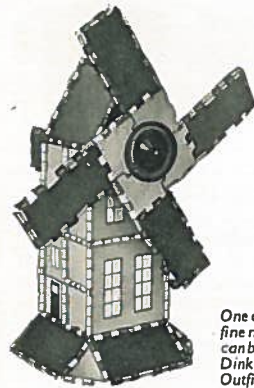

A Dinky Builder Outfit No. 1 can be converted into a Dinky Builder Outfit No. 2 by the addition of an Accessory Outfit No. 1a.

Dinky Builder Outfit No. 1 **\$**

New Dinky Builder models appear from time to time in the 'Meccano Magazine'

The 'Meccano Magazine' is ideal for Meccano model-builders

HORNBY CLOCKWORK TRAINS

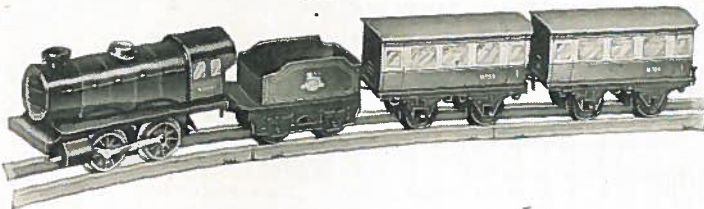

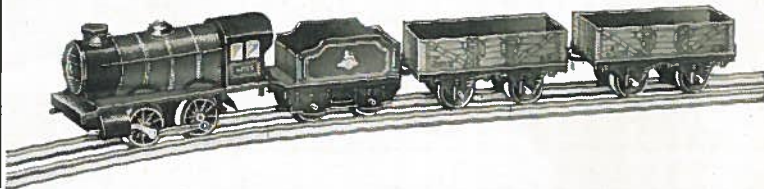

LONG-RUNNING STRONG-PULLING

A Hornby Clockwork Railway offers lasting enjoyment. A start can be made with a passenger train and a simple track formation. Later, a goods train and more track with Points and Crossings can be added. To make the realism more complete, there are Hornby Signals, Stations, Level Crossings, Turntables and other accessories to build a model railway that will provide thrills and fun for years. Every item is thoroughly tested — and, of course, fully guaranteed.

HORNBY GOODS TRAIN SET No. 20 \$4.25

This set contains — Locomotive No. 20 (non-reversing), Tender No. 20 (finished in B.R. green), two Wagons No. 20 and 1ft. radius Rails requiring a space 3ft. 3in. by 2ft. 6in.

HORNBY PASSENGER TRAIN SET No. 21 \$4.25

This set contains — Locomotive No. 20 (non-reversing), Tender No. 20 (finished in B.R. green), two Coaches No. 21 and 1ft. radius Rails requiring a space 3ft. 3in. by 2ft. 6in.

GAUGE O
1½ in. (32 mm.)

HORNBY M1 GOODS TRAIN SET ... \$5.50

This set contains M1 Locomotive (reversing) and M1 Tender, two M1 Wagons and 1ft. radius Rails requiring a space 3ft. 3in. by 2ft. 6in.

HORNBY M1 PASSENGER TRAIN SET \$5.50

This set contains M1 Locomotive (reversing) and M1 Tender, two M1 Pullman Coaches and 1ft. radius Rails requiring a space 3ft. 3in. by 2ft. 6in.

HORNBY No. 101 TANK PASSENGER TRAIN SET \$8.95

This set contains 101 Tank Locomotive (reversing), two No. 1 Coaches, Passenger Brake Van and 2ft. radius Rails requiring a space 5ft. 4in. by 4ft. 6in.

HORNBY CLOCKWORK TRAINS

HORNBY No. 201 TANK GOODS TRAIN SET ... \$8.25

This set contains 101 Tank Locomotive (reversing), one Wagon No. 1, one Timber Wagon No. 1, one Tank Wagon No. 1 (National Benzole) and 2ft. radius Rails requiring a space 5ft. 4in. by 4ft. 6in.

HORNBY No. 501 PASSENGER TRAIN SET ... \$10.95

This set contains 501 Locomotive (reversible from track), 501 Tender, two No. 1 Coaches, Passenger Brake Van and 2ft. radius Rails requiring a space 5ft. 4in. by 4ft. 6in.

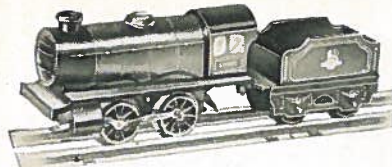

HORNBY No. 601 GOODS TRAIN SET \$10.95

This set contains 501 Locomotive (reversible from track), 501 Tender, Flat Truck, Wagon No. 1, Goods Brake Van and 2ft. radius Rails requiring a space 5ft. 4in. by 4ft. 6in.

HORNBY CLOCKWORK LOCOMOTIVES & TENDERS

Locomotive No. 20 (non-reversing) ... \$2.00
Tender No. 2030

No. 101 Tank Locomotive (reversing) \$4.25

M1 Locomotive (reversing) ... \$3.00
M1 Tender35

Hornby Clockwork Locomotives are noted for their power, speed and reliability. The Locomotive No. 20 will not reverse, but like all the other Hornby engines it has a brake that can be applied by hand or from the track by means of a Brake Rail.

Locomotives M1, 101 and 501 have reversing mechanisms, and the 501 Locomotive can be reversed from the track as well as from the cab.

501 Locomotive (reversible from track) ... \$5.50
501 Tender75

Train Sets Nos. 20, 21 and M1 contain 1ft. radius track, and additional Rails should be of the same radius, otherwise the extended layout may not fit together very well. Although intended for 1ft. track, Locomotives Nos. 20 and M1 will run on 2ft. radius track. Locomotives 101 and 501 must have 2ft. radius track; they will not run on 1ft. radius curves or Points.

HORNBY-DUBLO ELECTRIC TRAINS

GAUGE OO
1/16 in. (16.5 mm.)

- ★ A Complete Railway on the Table
- ★ Mains or Battery Operated
- ★ All-metal Construction
- ★ Powerful Locomotives
- ★ Fitted with Suppressors
- ★ Automatic Couplings
- ★ British and Guaranteed
- ★ Safe and Reliable

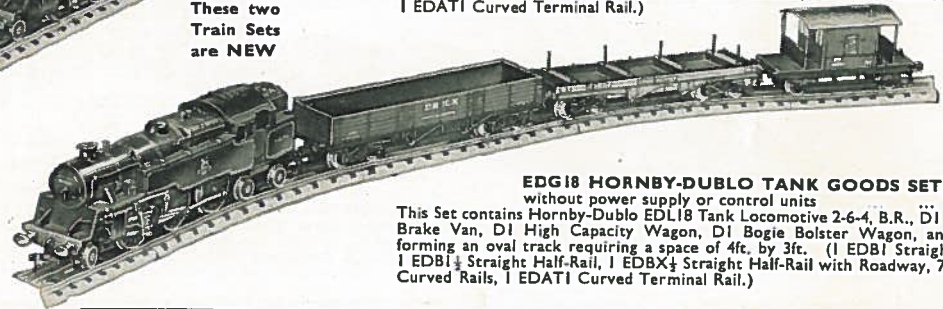

Hornby-Dublo Electric Trains operate on direct current at 12 volts. This current can be obtained in one of three ways (1) from alternating current mains supply through a Hornby-Dublo Transformer and Controller, (2) from three dry batteries (Ever-Ready 126 or Drydex H.30), or (3) from a 12-volt 20 ampere hour Accumulator. The first way is strongly recommended. When sources (2) and (3) are used for power supply, a Hornby-Dublo Battery Control Unit is necessary to control each locomotive. Sets do NOT include power supply or control units.

EDP13 HORNBY-DUBLO 2-6-4 TANK PASSENGER SET, B.R., without power supply or control units ... \$22.95

This Set contains Hornby-Dublo EDL18 Tank Locomotive 2-6-4, B.R., D13 Coach 1st/3rd, two D13 Suburban Coaches, Brake/3rd, and rails forming an oval track requiring a space of 4ft. by 3ft. (1 EDB1 Straight Rail, 1 EDB1 1/2 Straight Half-Rail, 1 EDBX 1/2 Straight Half-Rail with Roadway, 7 EDA1 Curved Rails, 1 EDAT1 Curved Terminal Rail.)

These two Train Sets are NEW

EDG18 HORNBY-DUBLO TANK GOODS SET, B.R., without power supply or control units ... \$21.95

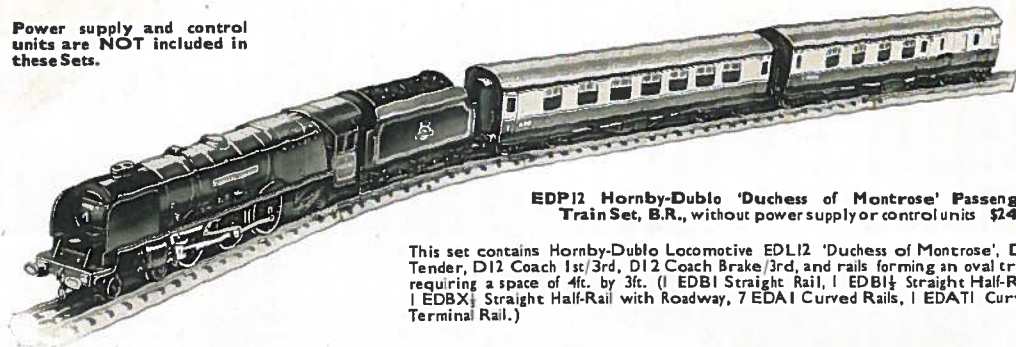

This Set contains Hornby-Dublo EDL18 Tank Locomotive 2-6-4, B.R., D1 Goods Brake Van, D1 High Capacity Wagon, D1 Bogie Bolster Wagon, and rails forming an oval track requiring a space of 4ft. by 3ft. (1 EDB1 Straight Rail, 1 EDB1 1/2 Straight Half-Rail, 1 EDBX 1/2 Straight Half-Rail with Roadway, 7 EDA1 Curved Rails, 1 EDAT1 Curved Terminal Rail.)

No Hornby Train owner should be without the 'Meccano Magazine'

No Hornby-Dublo Train owner should be without the 'Meccano Magazine'

HORNBY-DUBLO ELECTRIC TRAINS

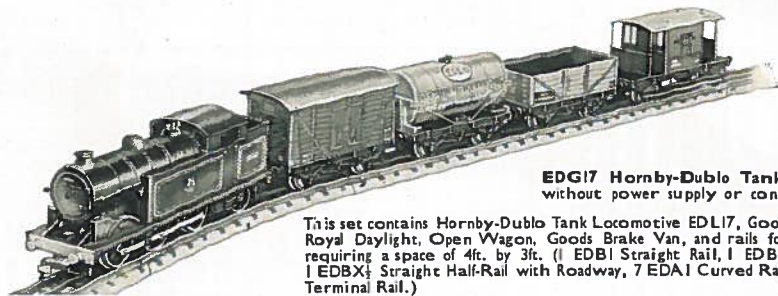

Power supply and control units are NOT included in these Sets.

EDPI2 Hornby-Dublo 'Duchess of Montrose' Passenger Train Set, B.R., without power supply or control units \$24.50

This set contains Hornby-Dublo Locomotive EDL12 'Duchess of Montrose', D12 Tender, D12 Coach 1st/3rd, D12 Coach Brake/3rd, and rails forming an oval track requiring a space of 4ft. by 3ft. (1 EDB1 Straight Rail, 1 EDB1½ Straight Half-Rail, 1 EDBX½ Straight Half-Rail with Roadway, 7 EDA1 Curved Rails, 1 EDAT1 Curved Terminal Rail.)

EDPI1 Hornby-Dublo 'Silver King' Passenger Train Set, B.R. (E.R.) (not illustrated) without power supply or control units \$21.95

EDG17 Hornby-Dublo Tank Goods Set, B.R., without power supply or control units \$17.95

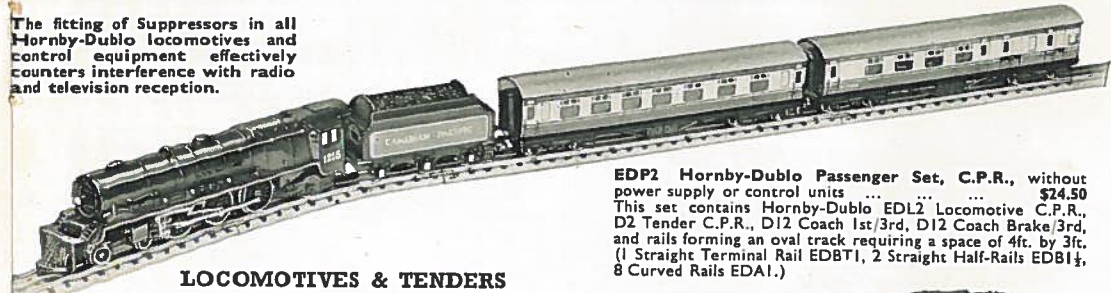

This set contains Hornby-Dublo Tank Locomotive EDL17, Goods Van, Tank Wagon Royal Daylight, Open Wagon, Goods Brake Van, and rails forming an oval track requiring a space of 4ft. by 3ft. (1 EDB1 Straight Rail, 1 EDB1½ Straight Half-Rail, 1 EDBX½ Straight Half-Rail with Roadway, 7 EDA1 Curved Rails, 1 EDAT1 Curved Terminal Rail.)

EDG3 Hornby-Dublo Canadian Pacific Freight-Train Set, C.P.R., without power supply or control units \$23.95

This set contains Hornby-Dublo EDL2 Locomotive C.P.R., D2 Tender C.P.R., High Capacity Wagon, Bogie Bolster Wagon and Caboose, and rails forming an oval track requiring a space of 4ft. by 3ft. (1 Straight Terminal Rail EDBT1, 2 Straight Half-Rails EDB1½, 8 Curved Rails EDA1.)

The fitting of Suppressors in all Hornby-Dublo locomotives and control equipment effectively counters interference with radio and television reception.

EDP2 Hornby-Dublo Passenger Set, C.P.R., without power supply or control units \$24.50

This set contains Hornby-Dublo EDL2 Locomotive C.P.R., D2 Tender C.P.R., D12 Coach 1st/3rd, D12 Coach Brake/3rd, and rails forming an oval track requiring a space of 4ft. by 3ft. (1 Straight Terminal Rail EDBT1, 2 Straight Half-Rails EDB1½, 8 Curved Rails EDA1.)

HORNBY-DUBLO BATTERY CONTROL UNIT

Battery Control Unit

A Hornby-Dublo Locomotive can be worked efficiently from dry batteries or accumulators using the Hornby-Dublo Battery Control Unit. Current at 12-volts is required, and this can be obtained from three Ever-Ready No. 126 or three Dry-dex H.30 batteries or from a 12-volt accumulator ... \$5.75

IBR 1/2 ISOLATING RAIL AND D2 SWITCH

With IBR 1/2 Isolating Rails and D2 Switches a layout may be divided into separate sections that can be made ‘alive’ or ‘dead’ as desired. Sidings, sections of main line, etc. can be isolated at will, so that several Locomotives can be operated from the same controller.
IBR 1/2 Isolating Rail45c.
D2 Switch, BLACK65c.
