

TUPO

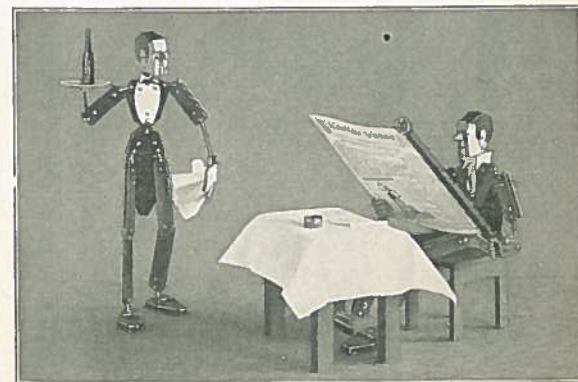

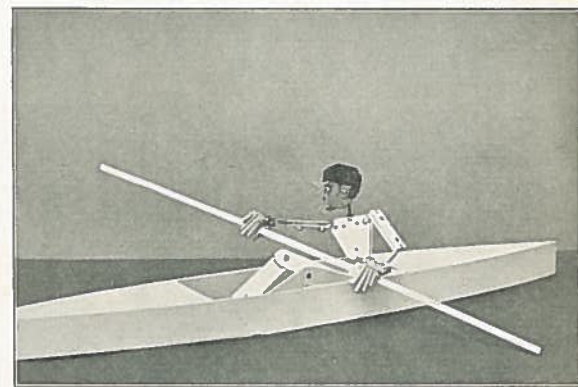

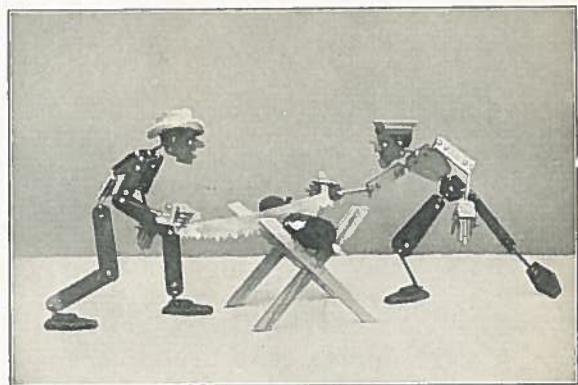

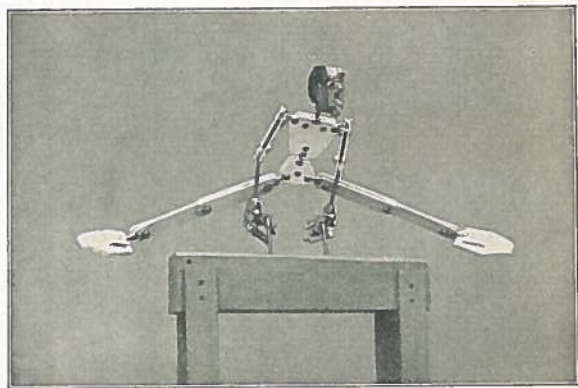

**“How delightful! How jolly!
How very funny! How nice!”
It is a pity, that we are not
able to retain all these excla-
mations of delight on a gram-
mophone record.**

**A better recommendation and a
more striking description is un-
thinkable.**

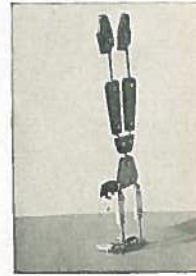

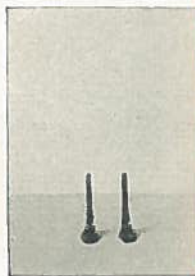

**Well, there could hardly be a
more funny suggestion than to
construct a copy of “oneself”.
A real double with whom one
can do as one likes, with whom
one can do what one likes.**

**There is the widest scope for
the imagination.**

**And the results one gets! Many
a hearty laugh you and your
children will enjoy. Yes, you
will also laugh, dear mother,
that is the wonderful effect of
the Tupo-man.**

It is impossible to imagine the surprises concealed behind these simple screws and strips of metal. There is no equal to Tupo.

We cannot explain everything to you, we can hardly even hint at all possibilities. Everybody - old and young - handles the Tupo-man in their own way. Each one knows more than the other. Talents in a quite novel field are awaked and discovered.

The Tupo-man can not only do any gymnastic exercise and most unexpected distortion, but he actually lives with you and your child.

He laughs with you - he wonders with you - but he can also be quite serious. It is all written on his face. His expression is so "speaking" that he can do without the spoken word.

Do have it all demonstrated to you.

Give your child

a Tupo-man for a present!

A Tupo-man is the toy for your darling!
