Racing Auto No. 8

Racing Auto No. 8

No. 8 Auto Outfit

AN accurate model of a stripped racing automobile with lots of action and plenty of speed to please the most rabid speed maniac. Driven by powerful motor placed under the hood and directly connected to rear axle. Sturdy, die-cast gears on rear axle. Artillery type wheels, finished with red hubs and spokes. Body handsomely finished in brilliant green enamel, and trimmed with nickel and black. Length, 16 in. overall; 12 1/2 in. wheelbase. Complete outfit ready to be constructed by the boy, furnished in sectional display box as shown.

All STRUCTO Auto-Builder Toys are furnished in complete outfits, ready for the purchaser to assemble and operate. Every part is included and the toys are guaranteed to run correctly when properly assembled. Full instructions are given, with illustrations, and the necessary tools included with the outfits. All toys shown on this side of this folder are sold in these Construction Outfits ready to build.

No. 10 Auto Outfit

Bear Cat Auto No. 10

Bear Cat Auto No. 10

SMART, sturdy automobile, of extremely rugged construction and capable of standing hard play. Equipped with double-unit motor which delivers ample power to the rear wheels to drive the car at high speed for a long time. Direct shaft drive, die-cast gears on rear axle. Start and stop lever. 16 in. overall; 12 1/2 in. wheelbase. Finished in beautiful red enamel, nickel finish and black trimmings. Artillery type wheels; red hubs and spokes. This is an excellent model of a real auto-builder, covers the ground and looks its part. Complete outfit ready to be constructed by the boy, furnished in sectional display box as shown.
